EDUCATION

B.Tech in Computer Science Engineering

IILM University, Greater Noida

Year: 2024–2029

Senior Secondary (XII)

Sunbeam English School, Varanasi

Year: 2024

Secondary (X)

Sunbeam English School, Varanasi

Year: 2022

PROJECTS

One Piece Fan Website — 2024

Tools: HTML, CSS

- Designed and developed a static fan website using HTML.
- Created multiple sections including navigation bar, characters, and storyline.
- Implemented navigation buttons to switch between character info and story content.
- Focused on clean layout and user-friendly interface.

Crop Disease Detection System — 2025

Tools: Python, Machine Learning, Image Processing

- Developed a machine-learning-based system to identify diseases in crop leaves using images.
- Trained the model on multiple plant disease datasets for accurate classification.
- Designed a simple interface to upload images and display disease predictions.
- Aimed to help farmers detect crop diseases at an early stage.

SKILLS

Programming Languages: C, JavaScript (Basic), Python (Basic)

Web Technologies: HTML, CSS, Responsive Web Design

Development Tools: Git, GitHub, Visual Studio Code

Concepts: Web Page Structure, Basic Problem-Solving, Debugging

Soft Skills: Communication, Teamwork, Adaptability, Time Management

CERTIFICATIONS

- Blockchain+ Executive Certification – AI Certs™ (2025)
- AI Workshop Participation – NextGenX AI Club, IILM University (2025)
- Hack O Clock Hackathon Top 50 – GDG Club, IILM University (2026)

ACHIEVEMENTS

- Chess player with approximately 1100 Elo rating
- 2nd Runner-Up in 100 meter dash
- 3rd Place – Mind Rocks (Scientific Research Storytelling Competition)
